

# THE INCREDIBLE HOOP GLIDER!

## You will need:

- A straw
- One long and one short piece of card
- Sticky tape

## To make your hoop glider:

1. Tape each strip of card into a hoop and secure with sticky tape.
2. Use sticky tape to fix the hoops to the straw as illustrated. (Notice that the straw is on the inside of the hoops.)
3. That's it! To fly your hoop glider, hold the straw in the middle with the hoops on top. Throw it in the air similar to how you might throw a dart angled slightly up. With practice you should get it to travel further than many paper aeroplanes.

How far will your hoop glider travel?
