09.04.24 Expires 30.04.24	1	DC/24/0123/FUL	Re-Consultation Change of use of dwelling (Class C3) into children's care home (C2) <i>An amended site layout has been received which alters the parking arrangement and removes the cycle storage from the front garden.</i> Ms Joanne Binfield, Area Camden Ltd	Airedale, 26 Hamlet Road	OBJECT:

OBJECT

The Town Council's previous objections still stand, however, we have noted the removal of the cycle storage from the front garden therefore remove paragraph 5) from our objection.

In addition, the amended site layout altering the parking arrangement has not addressed the parking issue. If anything, it is worse than before. Repositioning the gates and narrowing the car park compounds the limited manoeuvring on site. Vehicles will not have sufficient space to swing in or out of the access safely and will have no line of sight into the service road. The proposed new positions for the gates also obstruct the vision splay for the neighbouring property. Whilst the architect has drawn the cars in tight positions on a plan, HTC challenges whether this parking arrangement is going to be consistently achievable in the real world.

The amended site layout exacerbates the problem of swapping multiple cars at each shift change, resulting in the nuisance and potential danger to other users of this service road, only now the drivers will be distracted by avoiding contact with gate posts, walls, fences and colleague's vehicles, rather than focussing on safely entering the service road. The Town Council request Highways comment on this aspect of the application, given the potential issues around parking at the rear of the property, staff and visitors will park on Hamlet Road at the front the property, adding to the existing congested parking along Hamlet Road, which has made this effectively a single-track road with no passing spaces for some distance.
