

Haverhill Town Council

Review of Internal Control – June 2022

The Town Council is required to review its risks regularly. This does not mean undertaking a detailed Health and Safety risk assessment for all of its functions and services, which are carried out as required, but reviewing whether the processes, procedures and checks are robust enough to ensure that the Town Council:-

- acts within its legal powers
- fulfils its legal duties
- ensures the proper use and safety of its resources

Legal Powers

Power to act - Much of the Town Council's current portfolio of services and support is long-established, and is undertaken under powers provided through existing legislation. In terms of additional services, or enhancements to existing services, the Council relies upon the Clerk to ensure that the powers exist in law to provide these services. The Clerk in turn relies upon the availability of advice, either directly from the acknowledged standard textbook (Local Council Administration by Paul Clayden), or from the National Association of Local Councils (via the Suffolk Association of Local Councils). Further advice is available from the Society of Local Council Clerks.

To ensure that the Town Council acts within its legal powers for all new services the Clerk confirms, and notes in the minutes, the legislation empowering the Council to provide the service. The Council subscribes to the National Association of Local Councils and the Council continue to pay the Clerk's subscription to the Society of Local Council Clerks.

In 2012 the Council adopted the General Power of Competence, enabling it to do in law "...anything that individuals generally may do" [Parish Councils (General Power of Competence) (Prescribed Conditions) Order 2012], widening the legal power to carry out activities. This power of first resort is used as the legal power for all decisions the Council makes unless it would not be lawful to do so, in which case the Council minutes will record the power being relied upon for a decision.

In May 2015 and May 2019 the Council resolved that it is still eligible to use this power.

The Clerk and Assistant Clerk both hold the Certificate in Local Council Administration (CiLCA), a nationally-recognised qualification. The Clerk holds a level 5 Foundation Degree in Community Governance. He is studying at level 6 for a full degree in Community Governance to gain deeper understanding of best practice in local government.

The Town Council's trusteeship of the Haverhill Community Trust requires additional knowledge of the law relating the Charities. The Trustees rely upon the Clerk to the Trustee to ensure that they act in accordance with Charity and Company Law in providing services within the Arts Centre. The Clerk to the Trustee holds a Post-Graduate Diploma in Voluntary Sector Management and has 20 years' experience in running charities. In addition, advice is available from organisations such as Community Action Suffolk and the Charity Commission.

Knowledge and skills

The Town Council recognises the benefit of a well-trained and knowledgeable staff team and that the same applies to Councillors. Training via SALC and other suitable providers is accessed and Councillors who are also borough councillors have accessed training provided by that Council in addition to training through the Town Council. Whole-Council training is also arranged. An induction session for new Councillors was undertaken on 14th May 2019. Two Councillors in 2016, two more

Councillors in 2017 and the current Mayor in June 2022 attended the SALC Leadership Course for Chaining skills. New Councillors elected for the first time in May 2019 have been encouraged to attend training.

A new Councillor Handbook was provided to all Councillors in May 2019, which includes copies of key documents and a copy of the Good Councillor Guide. This has been updated with revised documentation.

The Town Council budgets for the purchase appropriate training for staff and Councillors and any reference works required.

Staff training is identified on the basis of the need of the organisation and scheduled to ensure skills are kept up-to-date.

Legal Duties

The Town Council has a duty in law to its staff and the general public. This includes employment law and Health and Safety, as well as general duties covering diversity and disability.

The Council carried out a programme of revision of policies to ensure they are in place and reflect best practice to form an Employee Handbook. This was carried out in conjunction with a specialist HR company and a Unison representative. The Council reviewed key employment policies in January 2018. The recruitment process was reviewed in September 2018 to ensure that it was fully up to date and in line with the Equalities Act and legislation covering illegal immigration.

The Town Clerk ensures that an annual overall risk assessment for the Council's staff and permanent/regular places of work is carried out, and the Operations Manager undertakes a risk assessment for all of the Council's "occasional" events and provide a comprehensive briefing to staff before the event commences. During Autumn 2020 Royal Sun Alliance took over the insurances of the Council and a review was carried out by them. Various improvements to security have been carried out to meet their requirements.

In May 2019 Arts Centre/Events staff underwent testing for noise-induced hearing impairment, carried out by qualified audiologists.

In April 2019 the Clerk, senior managers and Duty Managers for the Arts Centre received refresher training on their licensing responsibilities. Classroom-based and online training in food hygiene was provided to relevant staff and volunteers. In February 2020 the Clerk and key personnel involved in the children's safeguarding procedures within the Council attended refresher training by Suffolk County Council. In Summer 2020 a number of staff undertook training to be qualified to work on Highways carriageways, safe lighting and signing. In May 2021 key staff undertook training to be qualified in the use of scaffold towers. In February 2022 key staff undertook IPAF training to be able to competently use elevated platforms in public spaces.

As at June 2021 the café at the Zone was awarded 5/5 stars for food hygiene by Environmental Health.

Proper Use and Safety of Resources

The Town Council's financial resources (including items on its balance sheet) are controlled by an independent internal audit of its financial procedures and an independent external audit of its published accounts. Segregation of duties within the organisation is incorporated as far as reasonably possible and has proved satisfactory for both internal and external audit. In addition to these independent checks the Council insures its assets, not only against the usual risks, but also against fraud by the Clerk and other officers. In December 2017 an insurance revaluation was carried out for the buildings belonging to the Council and Haverhill Community Trust. Insurances were reviewed

and the Council and Haverhill Community Trust form an insurance group, ensuring both comprehensive and optimal value insurance for both entities.

Stock is subject to a twice-yearly stock take. The Asset Register is reviewed on an annual basis, the last occasion being 31st March 2022.

The independent internal auditor's report and the external auditor's report are circulated to every Member of the Council, put on to the website and reported to Full Council.

Balances

The Town Council has addressed the need to maintain balances at an appropriate level and reviews its earmarked reserves annually.

Investments

The Town Council has considered carefully the balance between security of investments and maximising returns on funds held. It has adopted a principle of prudence in doing so, maintaining access to sufficient funds required for day-to-day operation whilst using long-term investments suitable for funds held as long-term reserves.

Governance

The Accounts and Audit Regulations place an emphasis on governance arrangements, particularly the role of Council and Councillors in ensuring that matters, most notably financial, are as reported. The Financial Regulations are regularly reviewed to ensure they are both up to date with good practice and properly tailored and fit for purpose for Haverhill Town Council. They were last reviewed on 16th May 2022.

Town Councillors receive regular financial reports of income/expenditure against budget, and have the opportunity to question any item at the Finance Committee. The original bank statements are compared against the reported cashbook and bank reconciliation and signed by a Councillor as the same. Different Councillors are chosen randomly each time to ensure no collusion.

The RFO holds an accounting qualification and oversees the work of the Finance Administrator. Petty cash is worked as an imprest system so that at any time the value of the receipts and cash held resolves to the total allocation.

No officers can be cheque signatories (except the RFO for administrative permissions on the account) and two authorisations are required by the bank before any payment can be made. A clear trail with approvals is retained as a record.

Year-end closedown of accounts is not carried out by the finance administrator alone, but by RBS Accounting, with the RFO in attendance. Using an independent party adds an additional audit layer and checking that the book-keeping has been carried out competently.

Internal Audit

In adopting good practice, the Town Council should review the internal audit procedure, and that the review should consider, at a minimum, the following points:

1. Is the internal auditor (internal audit function) independent of the financial control/management of the council?
2. Is the internal auditor competent?
3. Is the level of internal audit proportionate to the needs, size and circumstance of the council?
4. Is the scope of the internal audit fit for purpose (in relation to the above question)?

For Haverhill Town Council the answers to these questions are:

1. The internal audit function was subject to a tender exercise in December 2014. The Internal Auditor is an independent person, appointed by the Town Council annually and employed by the partnership of Heelis and Lodge. This contract was due to expire after May 2020 but due to the impact of the covid-19 crisis the council resolved to extend to the contract, for the 2022/23 financial year as council recovers from the impact of the pandemic.
2. Heelis and Lodge supply internal audit to a number of Town and Parish Councils throughout Suffolk so can be said to have a good understanding of the role of the internal auditor and the Parish Council framework.
3. The Council retains advisors for VAT and HR matters and uses an independent adviser in the completion of year-end accounts. For its role as Sole Trustee of the Haverhill Community Trust it retains a relevant and qualified accountancy and audit company to oversee the year-end accounts. Given the context of broader external independent advice and regulation, the council considers the level of internal audit proportionate to the circumstances.
4. The Internal Auditor was appointed to work to the guidance in Appendix 8 of the Practitioners Guide, but with the expectation that areas requiring further, more detailed, investigation would be included, albeit at additional charge.

Both the Internal Auditor's Report and the External Auditor's Report are reported to Full Council and appropriate action agreed to address any issues contained within those reports.

Councillors are asked to review these arrangements and consider any necessary changes.

Colin Poole, Town Clerk
13th June 2022
